

# STAYING INFORMED COVID-19 PANDEMIC

Bulletin FOR FAMILIES

April 14<sup>th</sup>, 2020

## Permission for certain caregivers to enter CHSLDs

During today's government press briefing, Mr. Legault and Dr. Arruda announced that **certain recognized caregivers** can now return to the CHSLDs, under several conditions. Dr. Arruda stated that these caregivers will be identified by the facilities' management and must have already been performing this work before the outbreak of the pandemic.

Dr. Arruda emphasized that this permission does not extend to families or visitors. In fact, the prohibition on visits will be maintained to prevent the spread of the coronavirus.

The conditions must be respected and will be announced Friday, April 17, at the latest.

We have already started receiving calls and we ask that you **not call the nurses** or **the site manager**, as they are extremely in demand right now.

Since this recall is voluntary, if you are interested please send an email to [procheaidant@groupe-sante-arbec.com](mailto:procheaidant@groupe-sante-arbec.com) with your contact information, the name of the resident in question, the resident's room number and the name of their facility. We will contact you to inform you of the conditions that must be respected and the management's decision.

Thank you for your cooperation and understanding in supporting our mission to provide a safe environment for our residents.
