### Wireless Internet (Wi-Fi) at CH Heather

Good news!

We are very pleased to announce that the Ministère de la Santé et des Services sociaux has agreed to finance the improvement of the Wi-Fi network at CH Heather so that it is available everywhere in the Centre.

We are immediately taking steps to order the parts and prepare for installation.

We expect it to be fully functioning by the beginning of 2022.

This is excellent news for our staff and residents and for visitors to CH Heather.

A handwritten signature in blue ink, appearing to read "Vanessa Arthur", is positioned above the typed name.

Vanessa Arthur  
Regional Operations Director
